BANKERS ALLIANCE.

History of the Litigation
Testing Its Legality.

HOW THE SUIT WAS INSTITUTED.

Official Order of the Attorney-General
Dismissing the Action

Without Consent to the
Company.

Brief mention was made yesterday
morning about the dismissal of the suit instituted
some months ago against the Bankers'
Alliance, a cooperative life and accident
insurance company of this city, by the In-

Insurance Commissioner of the State,
on the ground that the company was con-

tinuing to do business in violation of the
State. The report that such suit had been
instituted was given very general circulation,
by which the business of the company has
been seriously interfered with, and now
that the whole matter has been settled,
and the corporation vindicated, a brief history
of the entire transaction will be of general
interest.

The Bankers' Alliance was organized
in Los Angeles just about two years ago by a
number of well-known bankers and capital-

ists, among them being Dr. H. Sinsabaugh,
one of the directors of the Los Angeles
National Bank, and now president of the
Broadway Bank; Gen. C. P. Johnson of
the Los Angeles Furniture Company; J. C. Sinsabaugh, president of the Los Angeles
National Bank; Dr. W. G. Cochran, a well-

known physician and banker, besides
others who are well known in Los Angeles
commercial circles. The plan proposed was
to charge a certain sum for membership, with
assessments to pay death benefits, etc., the
money to remain on deposit in the various
banks of the city, and the company to be
the State, wherever branches were estab-

lished. The plan as proposed was then laid
before the directors, and after some discussion
C. L. Wadsworth, who was asked to pass
on the same officially. Mr. Wadsworth, pre-

Oceanside's Wharf Wrecked by Heavy Seas.

A New Iron Pier Will Replace the Old Structure.

Funeral of Grand Secretary Abell at San Francisco.

A Bay City Peddler Slopes and Leaves Many Creditors—Prospects of More Rain—News of the Coast.

By Telegraph to The Times. OCEANSIDE (Cal.), Jan. 1.—[By the Associated Press.] The heavy west wind which prevailed on Tuesday night swept the wharf ashore, with the exception of about 300 feet. Work was commenced on it May 12, 1888, and suspended August 13, 1888. A new company is to be formed and an iron pier built.

PROSPECTS OF MORE RAIN.

A Decided Fall of the Barometer All Over the Coast.

SAN FRANCISCO, Jan. 1.—[By the Associated Press.] The cyclone of yesterday is still central off Vancouver Island, but increasing in energy. Its progress eastward has affected the barometric pressure from Mexico to British Columbia, over which region a decided fall has taken place in the past twenty-four hours, being most marked in Northern California, Western Nevada and Southern Oregon. The rain area has extended southward into San Joaquin Valley. Snow is reported from the mountains in Eastern Washington, Eastern Oregon, Eastern California and Western Nevada. Clear frosty weather is reported from Southern California and Arizona, with north to west winds. There is some prospect of rain becoming general throughout California during the next twenty-four hours.

GRAND SECRETARY ABELL.

His Funeral the Largest Ever Witnessed at San Francisco.

SAN FRANCISCO, Jan. 1.—Deputy Grand Secretary George Johnston of the Grand Lodge of Free and Accepted Masons has been appointed to act as grand secretary in place of the late Alexander Abell. Johnston will be secretary for two months, when the Grand Lodge will meet and elect Abell's successor. The funeral of Alexander Gordon Abell occurred today and the ceremonies were the most imposing witnessed here for a number of years. Private services were first held at the family residence, and the remains were taken to Masonic Temple, where services were held under the auspices of the order. The body was interred in Laurel Hill Cemetery.

LOOKING FOR SCOTT.

A San Francisco Peddler Suddenly Leaves Town.

SAN FRANCISCO, Jan. 1.—[By the Associated Press.] It is just developed that James Scott, a fruit peddler who had the largest business of that kind in the city, has disappeared, leaving creditors among the wholesale produce merchants here, to whom he owes money aggregating \$14,000. Scott's credit was good among the merchants and he obtained large amounts of goods from them just before Christmas, and it is said that he sold much of it around the streets for less than the cost price. The produce merchants are now looking for Scott, but there is no trace of his whereabouts.

At the station-house McGowan said that his father was the guilty person, and the old gentleman was also locked up.

Steel Works Shut Down.

CHICAGO, Jan. 1.—The shops of the Illinois Steel Works, except the blast furnaces, shut down last night, throwing 1500 men out of employment. The officers of the company are reticent in regard to the length of time the mills will remain closed. The employees believe that work will be resumed in March if not sooner.

A Kansas Bank Fails.

ANILAKE (Kan.), Jan. 1.—The Wallace County Bank closed today. The liabilities are about \$45,000, assets, nominally \$80,000, but almost entirely in western lands and equities. Large real-estate owners in western Kansas guaranteed Illinois and Pennsylvania investors caused the failure.

Gas Works Blown Up.

SHERBROOK (Quebec), Jan. 1.—There was a serious explosion at the gas works late last night which tore out one

FLAMING CRINOLINE.

School Girls Badly Burned at a New Year's Fete.

LONDON, Jan. 1.—[By the Associated Press.] While a school fete was in progress at Worly, near Leeds, today, a string of Chinese lanterns with which the grounds were illuminated, became detached from their fastenings and fell upon the heads of a bevy of young girls. In a moment the dresses of several girls ignited and a scene of the wildest excitement ensued. Other pupils rushed to the rescue of their comrades and beat out the flames with their hands, but in doing this they suffered severely themselves, a number being badly burned on the hands and arms. Fifteen girls were more or less burned and it is feared some of them will not survive their injuries.

ORDERED TO LEAVE TOWN.

An Outrage Upon a Colored Postmaster in Alabama.

UNIONTOWN (Ala.), Jan. 1.—There was a riot at Catharine station on the Mobile and Birmingham Railroad Tuesday night, and it is reported that several people were killed. The difficulty arose out of a faction fight. The colored postmaster at the place was ordered to leave town, which he did. The excitement continued unabated and an application has been made to the Governor for militia.

Later advice from Catharine says that nobody was killed. The trouble grew out of opposition to the negro postmaster, who has resigned.

Broke Through the Ice.

PIERRE (S. D.), Jan. 1.—Word was received from Fort Sully today that the wife of Lieut. E. C. Carahan was drowned today while crossing the Missouri River in an army ambulance, the ice breaking and the vehicle going under. The driver also perished, and Lieut. Carahan, who was riding some distance ahead and returned to the rescue, was barely saved from drowning by the soldiers.

The changes in length were measured in millionths of an inch, an experiment hitherto untried by physicists.

Reputed the Ocala Platform.

ST. PAUL, Jan. 1.—Today's session of the State Farmers Alliance was a warm one. A resolution to endorse the Ocala platform was heavily defeated, and the subject of sub-treasures ignored in the regular resolutions, while the Conger Land Bill was endorsed.

CUNNING CELESTIALS.

A Talk with United States Marshal Gard.

EVADING THE EXCLUSION ACT.
But Few Coming Over the Line, and None Getting the Advantage of the Government Officials.

The statement has been published in several papers that some of the cunning Celestials who live in Southern California, and who are desirous of returning to the Flowery Kingdom, have, by ways that are dark and tricky that are vain, succeeded in making the trip to the land of their nativity at the expense of the United States Government.

It is reported that Mongolians in the southern counties, who had accumulated wealth and who desired to go back to China, have been in the habit of going to Ensenada and thence returning north, endeavoring to cross the line contrary to the Scott Exclusion Act. Then the play was to permit themselves to be captured by a United States Marshal. Next they were taken before a United States Commissioner and remanded to China, their fare and expenses being borne by the Government of the United States.

United States Marshal George Gard was seen yesterday and asked if there was any truth in the story that this Government was thus being duped by the wily heathen. "Well, I rather think not. Now, for instance, suppose a Chinaman living here wanted to go home and concluded that he would counter on Uncle Sam's disingenuous honor of paying his fare and expense by adopting the method just suggested.

To begin with, his fare from Los Angeles to Ensenada, at the lowest possible rate, would be \$15. Arriving at Ensenada he has to be picked back to the line overland. There is no railroad, and the journey is made in wagons with a guide. No Chinaman can be piloted to the line for less than \$40 per head. Arriving there, he is arrested while crossing and in the course of time is remanded to China, his fare being paid by this Government.

Now, the total cost, exclusive of other expenses, to any Chinaman to place himself in the hands of a Deputy Marshal for shipment home is \$55 dollars. The fare from here to San Francisco is \$12, the steamer passage from there to China is \$33, making a total cost of \$47. Don't you see that it would be a waste of time for him to take the regular route than it would be for him to take his chances in an endeavor to force Uncle Sam to pay his fare.

But major could not a Chinaman go to San Diego and thence pass down to Tia Juana, and cross over into Lower California? Then, after going down a few miles, return, and if he crossed the line permit himself to be nabbed by some of our deputies. This would not be expensive to him, and he would make a considerable saving if he was desirous of returning to China.

Yes, he could do that, and perhaps some would if we were not on the look-out for them and guarded against such impostures. The facts of the case are that we are informed by our Chinaman who goes to Tia Juana on the motor line, the only means of reaching there. We watch them and see to it that they are not worked. Since April only three Chinamen have ridden to Tia Juana on the motor line and none of them crossed the line.

Talking about smooth, sleek, oily Chinamen, though, we ran across one the other day. One of the beatings approached my deputy at San Bernardino the other day and in the other hand held a red-hot pistol. He was working hard in his behalf, and they will do everything in their power to secure his escape.

King Kalakaua and suite, with Gen. McCook, Mayor Hazard and members of the reception committee, will attend the Opera House tonight. After the opera his majesty will return to the Raymond, where he will remain during the night. Tomorrow morning he will come to the city, when the programme heretofore published will be carried out.

On December 24 the association known as the Woman's Education and Industrial Union, which met last Tuesday evening, Wednesday afternoon at 2:30 o'clock, formally disbanded. On December 31 a new organization was formed, to be called simply the Woman's Club. The object, as stated in its constitution, is the education, elevation and protection of woman-kind. The new society meets weekly at the same time and place as the former association.

Does not affect coffee, but it requires very little intelligence to know that coffee roasted on the spot, where consumed, must be preferable to any that is roasted thousands of miles away—soiled or not soiled. the press, and by the press we do not mean the scholarly review of the profound and exhaustive treatise upon the present social problems; but we mean the every-day press, which sends out the weekly and daily newspaper into the homes of all our people. These are the instructors of the masses, and upon them rests largely the work of revolutionizing our social and industrial system.

If the daily and weekly press allies itself with the rich plutocrats, and, like Robinson of old, refuses to listen to the cry of the people, be assured that the tolling millions and those millions that cannot find honest work with which to provide food, will not always make peaceably through the streets of our cities asking for work.

Human nature is the same today that it was in the days of the French Revolution, and while the American people may be very patient, yet their patience will not submit to slavery or serfdom.

But if the daily press will only ally itself with the whole people, giving expression to their wants and leading them along the lines of great social and economic reforms, which today are struggling for leaders, and will not try to excuse themselves by claiming that their only mission is to give the people the news, then a peaceful revolution will be brought about.

And why may we not look for that beautiful and ideal adjustment of society to be enjoyed in this fair land of ours, which the prophet Isaiah speaks of: "And they shall build houses and inhabit them; they shall plant vineyards and eat of the fruit of them. They shall not build and another inhabit; they shall not plant and another eat."

We are very, very thankful for those timely warnings.

MAIN-ST. SAVINGS BANK
AND TRUST CO.Capital \$200,000.00
226 S. MAIN ST., LOS ANGELES, CAL.

FIVE-CENT DEPOSIT STAMPS.

We have adopted the system of FIVE-CENT DEPOSIT STAMPS which has been successfully carried on in many of the cities of Europe for over 10 years and lately adopted by many of the Savings Banks of the United States.

This bank will distribute to its agents a sufficient quantity of five-cent deposit stamps, a little larger than the ordinary five-cent postage stamp, and each bearing a stamp deposit book from the bank, with ten pages, each page ruled for twenty stamps, and when filled represents \$1, which is torn out by the depositor and sent to the bank, either direct or through one of the agents whose name and address appears below; the bank then issues to the depositor a regular ordinary Pass Book with the credit of a dollar, which will be sent to the depositor or agent, the depositor then begins to fill another leaf with stamps, which is sent or brought to the bank when full and so on. Any number of leaves can be deposited at the same time, or the depositor can wait until he or she has filled the book and bring or send it to the bank and receive an ordinary Deposit Book with the credit of \$10.

If you do not understand the system, call at the bank or on one of the bank's authorized agents and have it more fully explained.
